de Montille & Hakodate 2019 Tasting Participated in the second vintage unveiling tasting party of the De Montille & Hakodate project. Following 蒙 Go 2018 to send a different message every year, 2019 is "surprise" to show discoveries and surprises and share the transition of growth. Hakodate's own vineyard has been planted since 2019. The grapes are brewed from Yoichi at the 10R winery in Iwamizawa with the addition of staff from Burgundy. The blending after barrel aging was left to Bruce of 10R, and the blend sample was sent to Burgundy and Montille tasted it and decided the final blend. Three items with the addition of Zwei to last year's Kerner and Pinot Noir. All are wines that have a clear acidity (not sharp) and a well-balanced, seamless and smooth taste that you can continue to drink. Mr. Yano, who became the general manager of the Hakodate project, is convinced that Mr. de Montille emphasizes elegance. Even if it is made with 10R, this is de Montille's wine, and the policy of making is reflected in the taste. Wine that Japanese makers want to drink.
